# DP-A120 DUPRINTER

THE LOW COST B4 DUPRINTER  
ECONOMICAL PRINTING AT 300 × 360 DPI

**90 prints per minute**  
**300 × 360 dpi resolution**  
**500 sheet (80 gsm) capacity**  
**Optional USB 2.0 connectivity**

*Newsletters · Menus · Instruction sheets*  
*Direct mail · Classroom handouts*

The DP-A120 is Duplo's entry level Duprinter, its compact size, low cost per copy and high efficiency makes it a perfect addition to any office environment.

### 300 x 360 dpi printing

The DP-A120 produces high quality prints with its 300 x 360 dpi print resolution and two image modes, perfect for printing a range of applications such as newsletters, classroom handouts or letterheads.

### Easy to operate

The DP-A120 is very user-friendly, all functions and adjustments such as reduction/enlargement, image mode and speed are all conveniently located on the control panel. USB 2.0 connectivity is available as an option should you wish to print from your computer.

**High production in a compact design**  
Despite the small size of the DP-A120, it is a highly efficient machine with speeds of up to 90 prints per minute and a feeding/stacking capacity of 500 sheets (80 gsm). Should you wish to double your production, the 2 in 1 mode allows you to scan two images and print them onto one document.

**Cost effective**  
Like all Duprinters, the DP-A120 operates on an economies of scale principal making running costs extremely low, as the print quantity increases, the cost-per-copy rapidly decreases. This is a perfect solution for businesses wishing to print large volumes on a small budget.

**Environmentally friendly**  
The DP-A120 has been engineered to have a low environmental impact. On standby mode alone, only 18 watts of power is consumed, perfect for reducing your running costs and carbon footprint. Like all Duprinters the DP-A120 produces no ozone or emissions during operation.

**Colour printing**  
Create added value to your documents by adding a spot colour. A variety of coloured inks are available for the whole Duprinter range, should you require a specific colour, a pantone colour service is also provided.
